| | 5203522005000 | 35x20 | 2,0 | 50 |

Length

The tubes are produced in standard length of 5m.
Cut sizes are available to customers specific requirements.

Dimensions

The tubes are produced in standard dimensions (outer diameter and wall thickness) as shown in the table.

Brass Plated Steel Tubes

Direct plated finishes on welded steel tubes manufactured to DIN 2394. Only the very best quality of surface finish steel is used in the production of our tube.

| Product | Art.no. | Ø mm | Wall thickness mm | Meter per bundle |
|---|---------------|---------|----------------------|---------------------|
|  | 2900950502500 | 9,5 | 0,5 | 40 |

| | 4903050702500 | 30x15 | 0,7 | 40 |

Length

The tubes are produced in standard length of 1m 1,5m 2m and 2,5m.
Cut sizes are available to customers specific requirements.

Dimensions

The tubes are produced in standard dimensions (outer diameter and wall thickness) as shown in the table.
Other dimensions are available on request.

Plastic Coated Welded Steel Tubes

Plastic coated finish on welded steel tubes manufactured to DIN 2394. This method of production consist of a coating of plastic which is extruded directly onto the steel, ensuring a smooth and consistent surface finish. Ribbed and other profiled coatings are produced and further information is available on request. A wide range of colours are available but certain non standard colours are subjected to availability and minimum production quantities. The coating will withstand corrosion and exposure to all temperatures normally encountered in everyday conditions.
